SN STRUCTURES
Quality Pre-Engineering Buildings

About Us

We would like to take this opportunity to introduce our company as a PEB Structure manufactures with a complete range of Z & C Purlins , sheetings, all PEB accessories used in metal building systems , including PEB on a turnkey basis with design, engineering, manufacturing and installation.

SN Structures is located in the heart of Hyderabad, Telangana. Started as a trading company in the mid-nineties, was instrumental in pushing through various diversification plans. Initially the Group engaged itself in a range of manufacturing activities related to PEB manufacturing.

SN Structures future plans include setting up new Manufacturing facilities PAN India.

Vision

To be a leader in the metal building solutions industry by leveraging our engineering expertise.

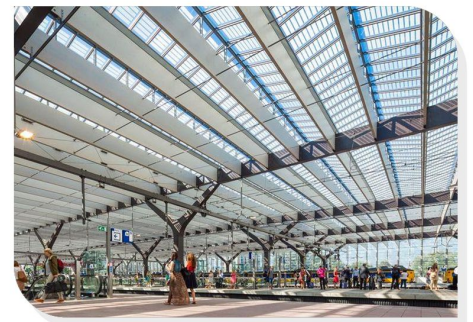

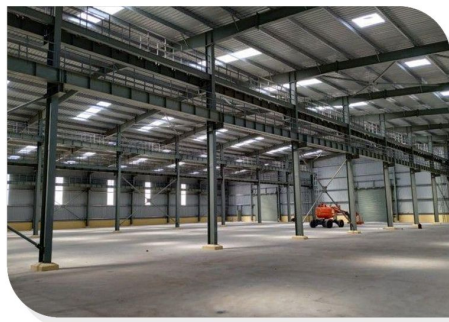

Mission

SN Structures delivers end to end buildings solutions for commercial, industrial, logistics, aviation, agricultural, sports and other sectors powered by Technical Collaborations with Global Leaders to surpass customer expectations through innovation design versatility, world class service, high end engineering expertise and cost-effective solutions.
